A NOTE FROM YOUR HOST

As an interior designer and female general contractor, creating beautiful, thoughtful spaces has always been at the center of what I do. My husband, a master electrician, shares that same hands-on passion for building and craftsmanship. During COVID, when travel came to a halt, we found ourselves dreaming of a warm place near the water, so we decided to create one ourselves. That's how our Sarasota home, and our journey into vacation rentals began.

Every detail of our home reflects the care we put into our work and the way we live as a family. From the design choices to the behind-the-walls systems, we personally renovated and shaped the space to feel comfortable, functional, and quietly beautiful. It's a home we use often with our three children and extended family, so it's filled with the kinds of touches that make a place truly livable, not just a place to stay.

We manage our property ourselves with the help of a small team of trusted people, all family owned businesses. We're always happy to help, answer questions, or share our favorite local spots. Our hope is simple, that you feel the same sense of ease and warmth here that we do every time we arrive.

This is our personal vacation home, we are not a large hotel or management company, and we've put a lot of love into making it a welcoming and comfortable space. We truly hope you enjoy our home.

If there's anything you need during your stay, please don't hesitate to reach out.

Warmly,

Kristen & Frank

HOUSE CARE + INFO

WHO YOU MAY SEE DURING YOUR STAY

To keep our home in tip-top shape, we have pool, pest control, and landscaping services that maintain the property regularly. During your stay, you may see these service providers on the property. The pool, pest control, and landscaping teams will enter the yard through the side gate and will not need access to the house. If interior access is ever required, we will personally notify you.

Things to know about these services

We always try to schedule at the most convenient time for our guests; however, timing is not always guaranteed. Because the pool is open, leaves and debris may occasionally fall in especially during windy or stormy weather conditions. A pool skimmer and battery-operated leaf blower has been left for your use.

After heavy rain, we prioritize having the pool serviced as soon as possible, but we appreciate your patience before, during, and after storm conditions. Please note that swimming is not permitted for 2–3 hours after pool service is completed for safety reasons. The pool is sensitive to weather conditions, particularly rainwater. After storms, we do our best to have the pool company come out to test and review the water to ensure everything is in good condition. Please review our pool guidelines carefully. We do not offer refunds for weather-related issues that may impact pool access, and use of the pool is at your own risk.

Finally, warm weather can attract various critters. We conduct monthly inspections and regular pest control treatments to minimize insects and pests. We thoroughly clean the house between guests and promptly dispose of food and trash to help maintain a clean environment. We kindly ask guests to help by properly disposing of food and trash. Please avoid leaving food on counters and outside overnight, and keeping trash bins closed with lids secured. You may encounter lizards, Palmetto bugs and critters native to Florida rest assured, they will not harm you!

If you have any questions or concerns at any time, please don't hesitate to reach out, we're always happy to help!

POOL RULES + INFO

The pool deck can be very slippery when wet—absolutely no running! Use caution, especially when wet, during use, and after rainfall.

Children under the age of 18 are not allowed at the pool unsupervised.
An adult over 18 must be present at all times.

Please lock all pool access doors at night.

Disabling door and pool alarms is dangerous and strictly forbidden.

Please keep anything not intended for pool use out of the pool. Do not touch or alter pool equipment. Tenants will be held responsible for any damage caused to the pool, equipment, or surrounding area due to negligence or misuse. The pool is inspected before and after each guest.

NO GLASS of any kind is permitted on the pool deck or in the pool at any time. If glass is found in the pool, the pool must be fully drained, cleaned, and refilled to ensure safety. This may result in the cancellation of current and future reservations. The pool is inspected and cleaned before and after each guest. If glass is discovered, the guest will be responsible for all service fees, cleaning costs, and any damages incurred. These fees may escalate and exceed $20,000.00. To reduce the risk of accidents, we have transitioned many glass items to plastic alternatives. While we understand this may not be ideal, this change is made with guest safety as our top priority.

The pool can be affected by weather and is not guaranteed for use during your reservation. Although we do our best to ensure the pool is ready for swimming, it may be affected by unpredictable weather. Refunds will NOT be issued due to pool issues beyond our control, including weather. Guests are reminded that use of the pool in any condition is at their own risk.

If pool rules are broken at any time, your rental agreement may be terminated, and no refund will be given.

Thank you for helping us maintain a safe environment for everyone!

POOL INFO

We want you to enjoy our heated pool just as much as we do!

If you'd like the pool heated for your stay, let us know at check-in. We're happy to set it to a cozy 84°F at no extra cost. If you'd like it warmer than 84°F, a $40 per day fee applies **NOTE**: The pool is heated, however temperature cannot be guaranteed as cold weather and rainfall can affect the pool's temperature overall temperature despite the thermostat setting.

Additionally, please keep in mind that the pool can be affected by weather conditions, particularly rainwater. We conduct tests and reviews following storms to ensure everything is in good order. We do not offer refunds for weather-related issues that may impact pool access, and use of the pool is at your own risk.

We do our absolute best to ensure the pool is in working order and properly maintained at all times. On the rare occasion that the pool is down for maintenance, the maximum refund per day is $50, which will only be refunded if the pool is unusable due to equipment failure. No refund will be given due to weather-related issues, issues beyond our control, or because of misuse or contamination by the guest.

HOUSE INFO

TV + WIFI

Wifi: **Nomadic Abode** Password: **7818018602!**

We have Samsung TV's. You can access your streaming apps, like Netflix, Prime, HBOMax.
Please make sure to sign out of all of your accounts before leaving.

HOUSE INFO

Heat/AC Control
HVAC can be controlled by the thermostat on the wall in the hallway.

If the HVAC system is not turning on, please check the breaker it may need to be reset. All systems are serviced quarterly, with unit cleanings and filter changes. They are checked for functionality at each check-in/out. If you need additional assistance please contact us.

Please do not set the heat above 75°F or the air conditioning below 68°F. Doing so wastes electricity and may overwork the units, potentially causing them to freeze.

Plumbing Care/Water
Please be cautious with the plumbing; the Sarasota waste pipes are clay and flushing anything other than toilet paper can cause damage. Please use trash bins for food disposal, as the garbage disposal should only be used for very small food scraps. If a plumber is needed, any clogs due to misuse may result in charges.

Sarasota water is okay to drink, but we don't love it! We have filtered water available via the fridge. The filter on the fridge is changed quarterly for your convenience and provides both filtered water and ice.

System Maintenance
All home systems, including plumbing, HVAC, and electrical, are serviced quarterly to ensure everything is in top shape for our guests.
